

Parker Jewish Institute
HEALTH CARE AND REHABILITATION

Wednesday, August 19, 2020

Dear Parker Families,

In an effort to keep you continually up to date and informed regarding our COVID-19 Management Plan, we are happy to report as of today, we currently have no new COVID-19 infections in our facility. We are expecting to begin visitation on or about Tuesday, September 8, 2020. ***Subject due to Change as per our regulatory guidelines.***

In the interim, we are working on new and exciting ways to continue to share information and keep you engaged with your loved one, regardless of if you can visit or not. This includes, FaceTime, calls and also live streaming of events when appropriate.

Our Family Call Center Team is ready to receive your call and to provide an additional layer of support and resource to you. Please feel free to contact the Center 24/7 at 718-289-2888. All calls will be responded to during regular business hours of 9am – 8pm, Monday through Sunday.

Please rest assured, that within our community, we are ensuring safety and that our residents and patients remain engaged and have fun, while receiving the care and attention they need.

Sincerely yours,

The Parker Community
