

Parker Jewish Institute
HEALTH CARE AND REHABILITATION

Sunday, December 6, 2020

Dear Parker Family Members and Friends,

In our continued effort to keep you informed and apprised, as of today we have two new cases. One resident and one staff member have tested positive for COVID-19, and are both asymptomatic, respectively.

Residents who test positive for COVID-19 are moved to a specialized observation unit for 14 days, and closely monitored for any changes in health status, and their specific needs are quickly addressed accordingly. Employees who test positive for COVID-19 are placed off the schedule for 14 days.

We continue to monitor and test our residents/patients, screen our staff daily, as well as test our staff weekly to control and mitigate the spread of this unpredictable disease.

The Family Call Center continues to be available for your calls and help you facilitate communications, as well as schedule Window Visits, FaceTime or just to be your link for any requests and questions that you may have. Please contact the **Family Call Center, 718-289-2888**.

As we are sure you're aware, cases of COVID-19 are rising significantly in New York State, and we need to be more vigilant than ever. Parker remains committed to keeping your loved one safe. Parker will continue to follow state and federal guidelines for infection control, which includes strictly enforcing safety protocols as COVID-19 rates rise.

We will keep you abreast as we move forward. We thank you for your patience during this time. Wishing you good health, and please practice proper infection control by wearing a mask, washing your hands and maintaining social distancing.

Sincerely yours,

The Parker Team
