

Parker Jewish Institute
HEALTH CARE AND REHABILITATION

Friday, February 26, 2021

Dear Parker Family Members and Friends,

We hope this note find you well. The Parker Jewish Institute wanted to advise everyone of some recent changes regarding visitation for our facility. We have received updated guidance from the regulators, about how to implement in-person family visiting once again. Under the new guidelines from the regulators, in-person visits will resume under the following conditions:

1. The facility has no new COVID-19 cases in the past 14 days.
2. The facility is in full compliance with all State/Federal requirements, State Executive Orders/guidance, State reporting requirements.
3. Visitors will be required to provide a negative COVID-19 test within 72 hours of their scheduled visit and screened upon arrival.
4. Visitation will be limited to 20% of the facility's daily census.
5. Visitors will be limited to 2 visitors per resident, ages 18 and older (unless accompanied by an adult).

The Parker Jewish Institute will update everyone, when we have achieved the first goal above.

As you are aware, COVID-19 infections continue to occur in New York State and we need to be more vigilant than ever. Parker remains committed to keeping your loved one safe. Parker will continue to follow state and federal guidelines for infection control, which includes strictly enforcing safety protocols. This is a difficult time for everyone. Please know that we are focused on ensuring that we determine to mitigate and reduce the spread of this insipidus virus so that in-person visitation can resume.

The Family Call Center continues to be available for your calls and help you facilitate communications, as well as schedule FaceTime calls or just to be your link for any requests and questions that you may have. Please contact our Family Call Center at 718-289-2888.

Sincerely yours,

The Parker Team
