

Parker Jewish Institute
HEALTH CARE AND REHABILITATION

Thursday, May 13, 2021

Dear Parker Family Members and Friends,

The Parker Jewish Institute continues to warmly welcome families, who **schedule visits** with loved ones, at our outdoor patio location. We appreciate everyone's cooperation, when scheduling and arriving for appointments. As the government continues to update travel restrictions, we remind everyone to please assist us with maintaining the safety of the residents/staff at all times, when you consider traveling to high-risk areas, for COVID-19.

Please check the most recent U.S. Centers for Disease Control and Prevention (CDC) guidelines, when planning to travel **internationally** or **domestically**. The CDC notes that in some areas, the level of COVID-19 transmission is still high. For this reason, we recommend that family members, especially those travelling overseas or domestically, be vaccinated or tested, to ensure that they do not potentially place residents/staff at risk, for contracting COVID-19. If you are unsure where to get tested for COVID-19, **we can help**. For information on scheduling a COVID-19 vaccination, please contact Parker At Your Door at 718-289-2606.

Thank you so much for your patience during these unprecedented times. We appreciate your support with protecting our patients, residents and the entire Parker community.

Respectfully,

The Parker Team
